<b>1 Linear Mixed Effect Models</b>	<b>1</b>
1.1 Brunia laevis . . . . .	1
1.1.1 Height . . . . .	1
Define the “default” models . . . . .	1
Fit the lme for different random effects . . . . .	2

## 1 Linear Mixed Effect Models

Load the package nlme

```
#
```

### 1.1 Brunia laevis

#### 1.1.1 Height

Clean old `dat.*` objects out

```
#
```

**Define the “default” models** Test Text

```
#
```

```
#
```

**Fit the lme for different random effects** random intercept and slope

#

only random intercept

#
