Services provided by Delorie Software and its sponsors (the ad above)

Lynx Viewer: http://www.helennhorton.com/

This service is intended to be used only by content developers, on their own pages.

Sorry, but due to abuse, this service cannot access sites that do not explicitly allow it.

Not Permitted

You need to create a file called **delorie.htm** on your web server to prove you're the webmaster. When I see this file (it can be empty) I'll allow my tools to access your site.

Attempted URL: `http://www.helennhorton.com/delorie.htm`

Here is a copy of the error messages I got from the server you were attempting to look at, in case that helps you. Note that these are *not* errors with *my* tools, so pleaes do *not* tell me my tools are broken because of these.

The requested URL could not be retrieved

While trying to retrieve the URL:

http://www.helennhorton.com/delorie.htm

The following error was encountered:

    Unable to determine IP address from host name for
    www.helennhorton.com

The dnsserver returned:

    DNS Domain 'www.helennhorton.com' is invalid: Host not found (authoritative).

This means that:
 The cache was not able to resolve the hostname presented in the URL.
 Check if the address is correct.
